

## Community Harvest Garden Adopted Beds Guidelines 2022

1. Keep your bed and adjoining paths well-tended.
2. Contact a garden leader if you will be unavailable to tend your garden bed for an extended period. If your bed appears to be untended for more than two weeks and you have not contacted a garden leader, you will be contacted, and you may forfeit your adopted bed.
3. Plant tall plants and vining or trailing plants on trellises where they will not interfere with your neighbors' beds.
4. Do not enter another gardener's bed without permission.
5. At the end of the growing season, all dead plants and non-plant materials (twine, wire, wood, metal, plastic, etc.) must be removed and disposed of properly, and the garden bed left neat and tidy.
  - a. Plant material and natural twine can be placed in the compost pile.
  - b. Wood stakes can be stored for next year or placed in the woods to rot.
  - c. Metal and plastic items are to be thrown into a garbage can.
